

Flagstaff's first ever high school Hackathon!

Hosted at **BASIS Flagstaff**
Saturday, October 5th, 2024
8AM – 6:30PM
FREE Admission

What is a Hackathon?

A hackathon is a collaborative event where teams "hack" solutions to real-world problems and compete for prizes. For high school students, it promotes teamwork, innovation, skill building, and a sense of accomplishment in completing meaningful projects. Ponderosa Hacks is a student organized event. We wanted to start a hackathon in Flagstaff since there were limited computer programming events and clubs in our local area. Hope you will help to support us!

Sponsorship funds will cover venue costs, food, merch, prizes, emergency expenses, and other essentials to ensure a successful hackathon.

No donation is too small! We also have several sponsorship packages available with different benefits, ranging from placement of your logo on all our materials to having a representative speak at our opening ceremony or giving out materials about your business or organization. By sponsoring Ponderosa Hacks, you will get your brand in front of 60-100 emerging developers and encourage coding + creativity into the future. Plus, marketing exposure to 4000+ Arizona high school students along with their families as we promote this event locally and on social media. This will also be advertised nationally on hackathons.hackclub.com and devpost.com.

Ponderosa Hacks is fiscally sponsored by Hack Club, a 501(c)(3) nonprofit. Our registered EIN is 81-2908499. Visit our website (<http://Ponderosa-Hacks.com>) and use the “[Donate/Sponsor](#)” link to donate. Or, contact us at ponderosa.hacks@gmail.com.

Benefits for monetary or in-kind donations	Bronze \$100+	Silver \$500+	Gold \$1000+	Partner \$3000+

Interested in Volunteering?

Are you a high-school student interested in helping to plan and organize this event? Please join our team!

Are you a recent graduate, college student, educator, or interested adult willing to volunteer/mentor hackathon attendees? Computer/tech background preferred but not required!

Please contact us to discuss.

PONDEROSA HACKS

FLAGSTAFF 2024

Flagstaff's first ever high school Hackathon!

Hosted at **BASIS Flagstaff**

Saturday, October 5th, 2024

8AM – 6:30PM

FREE Admission

What is a Hackathon?

A hackathon is a collaborative event where people come together and "hack" solutions to real-world problems such as world hunger, water pollution, or accessibility barriers. While we will not likely find THE solution to a global problem, we can workshop innovative ideas that may contribute to actual solutions. With hours of time to brainstorm, create, and model, you will present your project to a panel of judges for a chance to win cool prizes. During the day, we will provide food, snacks, activities to earn prizes, skills workshops to help with your project, and free goodies from our sponsors.

We need your help!

No donation is too small! Please consider supporting us with **money, food, supplies, prizes, and/or give-away items**. We have several packages available with different benefits, ranging from placement of your logo on all our materials to having a representative speak at our opening ceremony or giving out materials about your business or organization. By sponsoring Ponderosa Hacks, you will get your brand in front of 60-100 emerging developers and encourage coding + creativity into the future. Plus, marketing exposure to 4000+ Arizona high school students along with their families as we promote this event locally and on social media. This will also be advertised nationally on hackathons.hackclub.com and devpost.com. Please use the contact information below to learn more or to become a sponsor.
